

## Department of Computer Science

### PGDCA

The fundamental objective of the Department is to provide opportunities for our students to develop a firm foundation in computers, mathematics and design methodology applied to the disciplines of the Computer Science. Our course covers all fundamentals, working and advanced concepts that provide a learning environment where students understand and are able to apply the most contemporary and essential tools needed for the in depth knowledge of computer science.

### Duration of the Course

One Year Diploma (2 Semesters)

### Seats

**40 Seats**

## Eligibility for PGDCA

Students seeking admission to the Post Graduate Diploma in Computer Application (PGDCA) program should have passed Graduation in any stream with 45% marks (40% marks in case of SC/ST categories) from any recognized University. Students who have fulfilled these conditions will be considered to have met the PGDCA eligibility criteria. There should not be more than 5yrs gap between graduation and the admission to PGDCA course.

## Admission Procedure for PGDCA

Admission to PGDCA programme shall be made by Bareilly College strictly through merit Index of graduation examination. Reservation as per Govt. of U.P. Notification will be applicable.

## Placement

Students of Computer Science Department are getting placement in various I.T Companies, Government and Non Government sectors, Academics, and other Industries through placement cell of our institute.

## Course Content

The PGDCA course syllabus approved by MJPRU University has been formulated by eminent members of the IT industry. It has been structured in a way that will benefit the student so as to let him/her get a grip on the basic to the advance modules taught in the semesters.
