

NAAC 'A' GRADE

ADMISSIONS OPEN- 2021-2022

M.Sc. ENVIRONMENTAL SCIENCE

BAREILLY COLLEGE, BAREILLY, U.P. INDIA

PROGRAMME OVERVIEW : Globally Environmental Science extends beyond the traditional science disciplines to examine terrestrial, aquatic, and atmospheric biotic and abiotic systems and their interactions. Graduate with an in-depth knowledge of these environmental systems and how they function naturally and in response to humans. Develop a range of expertise necessary to address present and future environmental challenges. Based in northern Ontario, our program draws on world-class environmental research and community work, with special emphasis on northern freshwater ecology, reclamation of industrially damaged land and lakes, environmental remediation and protection, responsible resource development and climate adaptation.

Department of Environmental Science

RELEVANCE OF THE COURSE : The M.Sc. Environmental Science curriculum requires an in-depth understanding of the subjects of Environmental Science and Unsustainable Consumption of Resources. There are only a few Universities in India that offer course about M.Sc. Environmental Science. There are huge Infrastructures and expensive economic development is being planned in India to mention and promote economic growth, all at the branch of our natural resources. Increasing populations in less developed countries and identifying incomes in more developed countries are placing increasing demands on the Earth's resources. As a M.Sc. Environmental Science student you will learn how to apply scientific economic and social knowledge to help society resolve these conflicts.

ELIGIBILITY CRITERIA: Applicant should hold B.Sc. Degree in Environmental Science /Life Science /Botany/Zoology/Biotechnology/ Agriculture (Math Groups with Chemistry,) the candidate must have passed B.Sc. (3 Year course) with 45% marks. For SC/ST candidates, there will be relaxation of 5% marks as per rules. **Students of final year may also apply, however they have to attain eligibility at the time of counseling.**

JOB PROSPECTS: At large Environmental Science majors are passionate about preserving and improving the world's land, water and air quality. A degree in Environmental Science can open up many job opportunities in research, education, law and more. Of ten times, environmental science majors end up working for Universities, the government or private research institution. While some of the jobs on this list can be achieved with slowly bachelor's degree many of them require further, more specialized education or training.

PROGRAMME DETAILS

Course Duration : 2 Years
Student Intake : 40+EWS 4 = 44
One Extensive field excursions
Summer Training : 1 Month
Dissertation : 6 Months

ADMISSION DETAILS

Mode of selection: ON MERIT BAISIS

REGISTRATION IS OPEN
